

2007 and 2008 will be decisive years for the inscription of New Caledonia's coral reef on UNESCO'S World Heritage Listing.

New Caledonia's dossier was presented by France at l'UNESCO on 31 January 2007.

As those responsible for initiating this action in 2000, **Corail Vivant** Association hopes to be able to continue to represent you by following the dossier and participating in the area of competitive biodiversity, whilst liaising with local people.

We hope for your massive membership to enable us to improve our representation and to be ever more effective, in the name of all of you.

Thank you !

Marina Kahlému, President

We pay tribute to

- the Customary Senate, which undertook identical action on its own initiative,

- the Northern and Loyalty Island Provinces Nord for their constancy concerning the principle of this

UNESCO inscription.

We thank the South Province for having chosen a more positive and more open position in this matter.

GIVE US THE STRENGTH, HELP US TO « SAVE THE COLOUR OF THE OCEANS »
